# Third Floor

---

## **Third Floor : Chicago 7**

The Chicago 7 features floor to ceiling windows on two sides. The entire space combines Davis, Dellinger and Hayden rooms, and makes up the largest space in the Thompson Chicago. The Chicago 7 features an independent pre-function space for larger receptions and meal settings.

Digital signage may be customized with consultation for each space, or for the entire floor.

For detailed capacities, please refer to capacity chart.

## **Davis**

The Davis room is located on the west side of the Chicago 7 Ballroom, overlooking Rush St., featuring natural lighting from the west and north.

The Davis room can be combined with Dellinger for meetings or receptions with meals. In combination, the Davis room allows for roll-in breaks or buffets without inhibiting necessary space for theater, classroom, or conference set-ups.

Best for : The Davis room is best set for meetings for up to 30 guests classroom -set, with meals set in Dellinger.

For additional set-ups with capacities, please refer to capacity chart.

## **Dellinger**

The Dellinger room is located at the heart of the Chicago 7 Ballroom, overlooking Bellevue St.

The Dellinger room features natural lighting from the north, and can be combined with the Davis room or the Hayden room. The Dellinger room opens directly on to the Third Floor Pre-function space.

Best for: The Dellinger room is best set for u-shape or hollow square meeting set-ups up to 22 guests. Dellinger is also an excellent meal room with meetings in Davis or Hayden.

For additional set-ups with capacities, please refer to capacity chart.

## **Hayden**

The Hayden room is located on the eastern side of the Chicago 7 Ballroom, overlooking Bellevue St.

The Hayden room features natural lighting from the north, and can be combined with the Dellinger room.

Best for: The Hayden room is best set with crescent rounds for meetings with presentations, in conjunction with the Dellinger room for meals.

For additional set-ups with capacities, please refer to capacity chart.

# Fourth Floor

---

## **Hoffman**

The Hoffman room is located on the far west side of the fourth floor, and features natural light from the west and north.

Directly adjacent to the Rubin room, the two spaces can be combined. Solid oak doors, rather than an air wall, separate the Hoffman and Rubin rooms. This arrangement allows for uninterrupted meetings with meals next door.

Digital signage may be customized with consultation.

Capacity: Hoffman can accommodate up to 24 guests classroom style.

For additional set-ups with capacities, please refer to capacity chart.

## **Rubin**

The Rubin room is located on the eastern side of the Hoffman room, and features natural light from the north.

The two spaces can be combined, perfect for meetings with meals. Solid oak doors, rather than an air wall, separate the Hoffman and Rubin rooms. This arrangement allows for uninterrupted meetings with meals next door.

Digital signage may be customized with consultation.

Capacity: The Rubin room can accommodate up to 20 guests set u-shape.

For additional set-ups with capacities, please refer to capacity chart.

## **Froines**

The Froines room overlooks Bellevue St, and features a floor to ceiling half-moon window facing north.

The Froines room opens up to the Fourth Floor Pre-function space. The Froines room is a perfect setting for board meetings and can seamlessly transition for reception style events with lounge furniture.

Digital signage may be customized with consultation.

Capacity: Froines can accommodate up to 18 guests set in a hollow square

For additional set-ups with capacities, please refer to capacity chart.

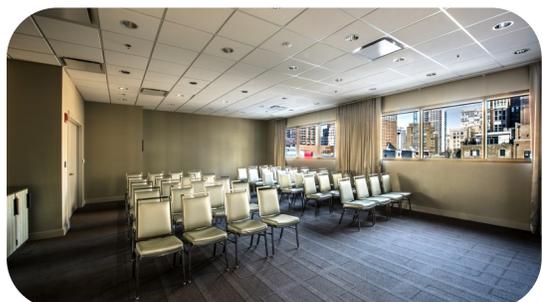

## **Lee Weiner**

The Lee Weiner room is located at the far east side of the fourth floor, and offers one of the larger spaces available on the fourth floor.

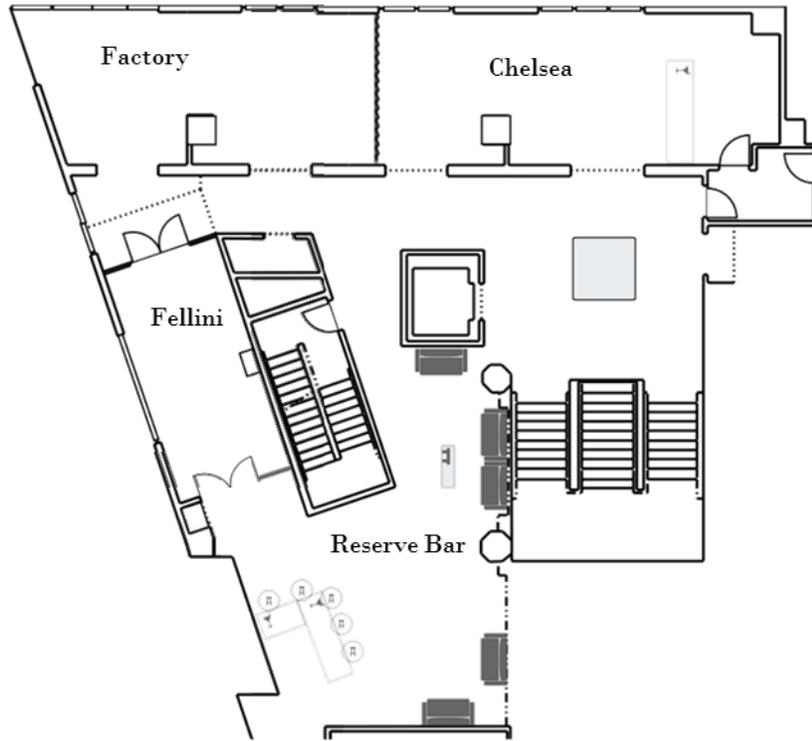

The Lee Weiner room features natural lighting from the north side of the room, and is an excellent setting for meetings with audio/visual needs.

Capacity: Lee Weiner can accommodate up to 20 guests conference style.

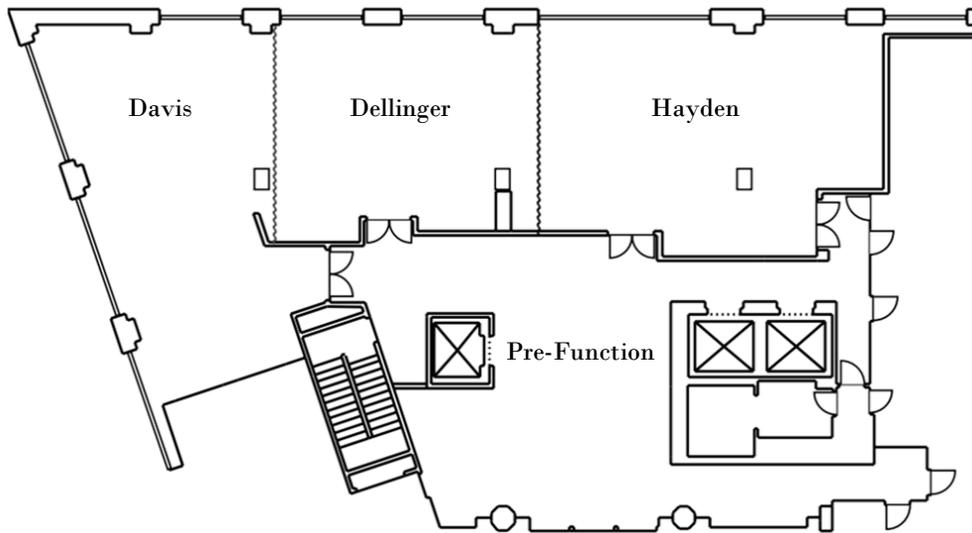

For additional set-ups with capacities, please refer to capacity chart.
